

## Dental-Union GmbH fundraising campaign for Bärenherz

This year, too, the traditional sales campaign of Omnident products took place through the promotional flyer "AberHallo". Thanks to its loyal customers, Dental-Union GmbH was once again able to hand over a considerable donation amounting to EUR 5,000 to the Bärenherz Foundation in Wiesbaden.

Dental-Union GmbH has been a sponsor of the Bärenherz Foundation since 2005 and lends its support in the form of annual donations and campaigns. It is by no means a matter of course that a child is healthy. For this reason, it is hugely important for Dental-Union to visit Bärenherz regularly and thus take part.

The mission undertaken by the Bärenherz Foundation is to support those facilities that work for families with children who are terminally ill and have a short life expectancy, especially children's hospices. In the two children's hospices supported by the Foundation in Wiesbaden and Markkleeberg near Leipzig, families are accompanied from diagnosis to the passing of their child and beyond. Taking care of children, often for many years, requires an infinite amount of strength.

We, therefore, hope that even more people will come to understand this, and will happily get involved in this tremendous cause and support Bärenherz.
