

A matter of the heart: Dental-Union GmbH donates EUR 6,000 to the Bärenherz Foundation

Once again this year, Dental-Union GmbH has shown its commitment to the Bärenherz Foundation in Wiesbaden by handing over a donation of EUR 6,000.

The traditional sales campaign for OMNIDENT products – implemented through the “Aber Hallo” advertising flyer – once again raised a considerable sum thanks to numerous buyers. As a long-standing sponsor of the Bärenherz Foundation, Dental-Union GmbH would like to thank its committed customers for their loyalty to (and support for) Bärenherz.

The Bärenherz Foundation has been working tirelessly since 2003 to support seriously ill children and young people and their families during such difficult times. By providing specialised care and support services, the Foundation helps to give affected families moments of joy and hope.

Being a sponsor of this valuable institution is a matter close to the heart for Dental-Union. Every donation supports the valuable work undertaken by the Foundation, and is used specifically to promote the Foundation’s various programmes and services aimed at making everyday life easier for the families concerned.
