

## Dental-Union GmbH donates to Bärenherz

*A tradition, a passion, and always a special opportunity.*

This is how the fundraising campaign of Rodgau-based Dental-Union GmbH in support of the Bärenherz children's hospice in Wiesbaden can be described.

Every year, the company runs a sales campaign for its own, OMNIDENT-branded products via the "AberHallo" flier promotion. Thanks to this campaign, the representatives of Dental-Union GmbH were once again able to personally present a cheque for a donation of € 5,000 to the hospice this year.

"As a sponsor of the Bärenherz Foundation, we are very proud that our campaign is supported by so many of our customers, enabling us to make a contribution to the good and professional care of severely ill children and their families.

It has also become a tradition for us to purchase the birthday presents for our staff as well as Christmas presents and Christmas cards for our customers and friends of our company from the Bärenherz shop".

The Bärenherz Foundation supports facilities for families with children who are terminally ill and have a short life expectancy, in particular children's hospices. Supported facilities currently include the children's hospices in Wiesbaden, in Markkleeberg near Leipzig and the "Nesthäkchen" children's house in Heidenrod-Laufenselden in the Rheingau-Taunus district.
